

latte & crema

MILKI

Made in Italy

**This unit makes hot and foamy milk directly into the cup.
With Milki you can make a thick and rich cream just like a professional machine.**

Milki is the new appliance that makes any type of foamed milk-based drink easy. Simple, effective and safe! It dispenses hot creamy milk directly into the cups, ready to be tasted as you prefer.

The foaminess level can be adjusted as you like.

Simply add chocolate, coffee or, freeze-dried mixtures to make tasty hot drinks like at the café as at the bar.

Milki can also be used to warm water and make brews of any kind: tea, herb-teatisanes, punch.

It takes three minutes to start up and is ready to use.
